CHURCH OF ENGLAND PRIMARY SCHOOLS

Love Learn Thrive

Online Safety Policy

Schedule for Development/Monitoring/Review

This online safety policy was approved by the Governing Body on:	***23rd March 2022***
The implementation of this online safety policy will be monitored by the:	***Headteacher / Computing lead***
Monitoring will take place at regular intervals:	***Half termly through CPOMS***
The Governing Body will receive a report on the implementation of the online safety policy generated by the monitoring group (which will include anonymous details of online safety incidents) at regular intervals:	***At each FGB meeting via the School on a Page Context Document***
The online safety policy will be reviewed annually, or more regularly in the light of significant developments in the use of technologies, new threats to online safety or incidents that have taken place. The next anticipated review date will be:	***March 2023***

The school will monitor the impact of the policy using:

- Logs of reported incidents through CPOMS: Behaviour related log: Cyber bullying
- Monitoring logs of internet activity (including sites visited)/filtering
- Internal monitoring data for network activity through Yorkshire Causeway Schools Trust

Scope of the Policy

This policy applies to all members of the Federation community (including staff, children, volunteers, parents/carers, visitors) who have access to and are users of school digital technology systems, both in and out of the Federation.

The Education and Inspections Act 2006 empowers Headteachers to such extent as is reasonable, to regulate the behaviour of children when they are off the school site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour. This is pertinent to incidents of online-bullying or other online safety incidents covered by this policy, which may take place outside of the schools, but is linked to membership of the school. The 2011 Education Act increased these powers with regard to the searching for and of electronic devices and the deletion of data.

The schools will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents/carers of incidents of inappropriate online safety behaviour that take place out of school.

Roles and Responsibilities

The following section outlines the online safety roles and responsibilities of individuals and groups within the Federation.

Governors

Governors are responsible for the approval of the online safety policy and for reviewing the effectiveness of the policy. This will be carried out by the Governors receiving regular information about online safety incidents and monitoring reports. A member of the Governing Body will take the role of Online Safety Governor as well as Safeguarding.

Headteacher and Senior Leaders

- The Headteacher has a duty of care for ensuring the safety (including online safety) of members of the school community, in collaboration with the Computing Lead.
- The Headteacher and the Senior Leadership Team should be aware of the procedures to be followed in the event of a serious online safety allegation being made against a member of staff. (see flow chart on dealing with online safety incidents – included in a later section – "Responding to incidents of misuse" and relevant Local Authority body disciplinary procedures).
- The Headteacher and Senior Leaders are responsible for ensuring that the Online Safety Lead and other relevant staff receive suitable training to enable them to carry out their online safety roles and to train other colleagues, as relevant.
- The Headteacher and Senior Leaders will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal online safety monitoring role. This is to provide a safety net and also support to those colleagues who take on important monitoring roles.

Online Safety Lead

- Is also part of the Safeguarding team (DDSL)
- takes day to day responsibility for online safety issues and has a leading role in establishing and reviewing the school online safety policies/documents
- ensures that all staff are aware of the procedures that need to be followed in the event of an online safety incident taking place.
- provides training and advice for staff
- liaises with the Local Authority as needed
- liaises with school technical staff
- receives reports of online safety incidents and creates a log of incidents to inform future online safety developments.
- meets regularly with Online Safety *Governor* to discuss current issues, review incident logs and filtering/change control logs
- attends relevant meetings of *Governors*
- reports regularly to Senior Leadership Team

Network Manager/Technical staff

Those with technical responsibilities are responsible for ensuring:

- that the school's technical infrastructure is secure and is not open to misuse or malicious attack
- that the school meets required online safety technical requirements and any Local Authority online safety policy/guidance that may apply.
- that users may only access the networks and devices through a properly enforced password protection policy
- the filtering policy is applied and updated on a regular basis and that its implementation is not the sole responsibility of any single person.
- that the use of the networks/internet/digital technologies is regularly monitored in order that any misuse/attempted misuse can be reported to the Headteacher and Senior Leaders; Computing Lead/ Safeguarding Governor for investigation/action/sanction
- that monitoring software/systems are implemented and updated as agreed in school policies

Teaching and Support Staff

Are responsible for ensuring that:

- they have an up to date awareness of online safety matters and of the current school online safety policy and practices
- they have read, understood and signed the staff acceptable use policy/agreement.
- they report any suspected misuse or problem to the Headteacher/Senior Leader/Computing Lead for investigation/action/sanction
- all digital communications with children/parents/carers should be on a professional level and only carried out using official school systems
- online safety issues are embedded in all aspects of the curriculum and other activities
- children understand and follow the Online Safety Policy and acceptable use policies
- children have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they monitor the use of digital technologies, mobile devices, cameras, etc. in lessons and other school activities (where allowed) and implement current policies with regard to these devices
- in lessons where internet use is pre-planned children should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches

Designated and Deputy Designated Safeguarding Leads

Should be trained in online safety issues and be aware of the potential for serious child protection/safeguarding issues to arise from:

- sharing of personal data
- access to illegal/inappropriate materials
- inappropriate on-line contact with adults/strangers
- potential or actual incidents of grooming
- online-bullying

Children:

- are responsible for using the schools digital technology systems in accordance with the student/pupil acceptable use agreement
- have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- need to understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- will be expected to know and understand policies on the use of mobile devices and digital cameras. They should also know and understand policies on the taking/use of images and on online-bullying.
- should understand the importance of adopting good online safety practice when using digital technologies out of school and realise that the *school's* online safety policy covers their actions out of school, if related to their membership of the school

Parents/carers

- Parents/carers play a crucial role in ensuring that their children understand the need to use the internet/mobile devices in an appropriate way. The schools will take every opportunity to help parents understand these issues through parents' evenings, newsletters, letters, website and information about national/local online safety campaigns/literature. Parents and carers will be encouraged to support the school in promoting good online safety practice and to follow guidelines on the appropriate use of digital and video images taken at school events.

:

Policy Statements

Education – Children

Whilst regulation and technical solutions are very important, their use must be balanced by educating children to take a responsible approach. The education of children in online safety/digital literacy is therefore an essential part of the Federation online safety provision. Children and young people need the help and support of the school to recognise and avoid online safety risks and build their resilience.

Online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways:

- A planned online safety curriculum will be provided as part of Computing/PHSE/other lessons and is regularly revisited
- Children are taught in all lessons to be critically aware of the materials/content they access on-line and be guided to validate the accuracy of information.
- Children should be taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet.
- Children should be supported in building resilience to radicalisation by providing a safe environment for debating controversial issues and helping them to understand how they can influence and participate in decision-making.

- Children should be helped to understand the need for the pupil acceptable use agreement and encouraged to adopt safe and responsible use both within and outside school.
- Staff should act as good role models in their use of digital technologies, the internet and mobile devices
- in lessons where internet use is pre-planned, it is best practice that children should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches.
- Where children are allowed to freely search the internet, staff should be vigilant in monitoring the content of the websites the young people visit.

Education – Parents/carers

Parents play an essential role in the education of their children and in the monitoring/regulation of the children's online behaviours. Parents may underestimate how often children and young people come across potentially harmful and inappropriate material on the internet and may be unsure about how to respond.

The school will therefore seek to provide information and awareness to parents and carers through:

- Curriculum activities
- Letters, newsletters (specific to online safety and sent to parents monthly), web site,
- High profile events/campaigns e.g. Safer Internet Day
- Reference to the relevant web sites/publications e.g. www.saferinternet.org.uk/, http://www.childnet.com/parents-and-carers

Education & Training – Staff/Volunteers

It is essential that all staff receive online safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- A planned programme of formal online safety training will be made available to staff. This will be regularly updated and reinforced. An audit of the online safety training needs of all staff will be carried out regularly.
- All new staff should receive online safety training as part of their induction programme, ensuring that they fully understand the school online safety policy and acceptable use agreements.
- The Online Safety Lead will receive regular updates through attendance at external training events and by reviewing guidance documents released by relevant organisations.
- This online safety policy and its updates will be presented to and discussed by staff in staff meetings training sessions.
- The Online Safety Lead will provide advice/guidance/training to individuals as required.

Training – Governors

Governors should be aware of online safety and this is of particular importance to those who are members of any group involved in technology/online safety/health and safety /safeguarding. This may be offered in a number of ways:

- Attendance at training provided by the Local Authority/National Governors Association/or other relevant organisation (e.g. SWGfL).
- Participation in school training/information sessions for staff or parents.

Technical – infrastructure/equipment, filtering and monitoring

The school will be responsible for ensuring that the school infrastructure/network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. It will also need to ensure that the relevant people named in the above sections will be effective in carrying out their online safety responsibilities:

- School technical systems will be managed in ways that ensure that the school meets recommended technical requirements.
- There will be regular reviews and audits of the safety and security of school technical systems
- Servers, wireless systems and cabling must be securely located and physical access restricted
- All users will have clearly defined access rights to school technical systems and devices.
- All users at KS2 and above will be provided with a username and secure password. Users are responsible for the security of their username and password. Key Stage 1 will have access to class logins. Key Stage 2 will have individual logins in order to model good password practice.
- The "master/administrator" passwords for the school systems, used by the Network Manager (or other person) must also be available to the Headteacher or other nominated senior leader and kept in a secure place (e.g. school safe)
- In conjunction with the school office, Yorkshire Causeway Schools Academy Trust who provide the IT support for Federation of Follifoot and Spofforth CE Primary Schools are responsible for ensuring that software licence logs are accurate and up to date and that regular checks are made to reconcile the number of licences purchased against the number of software installations.
- Internet access is filtered for all users. Illegal content (child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation CAIC list. Content lists are regularly updated and internet use is logged and regularly monitored. There is a clear process in place to deal with requests for filtering changes.
- Internet filtering/monitoring should ensure that children are safe from terrorist and extremist material when accessing the internet.
- The school has provided enhanced/differentiated user-level filtering.
- School technical staff regularly monitor and record the activity of users on the school technical systems and users are made aware of this in the acceptable use agreement.

- An appropriate system is in place for users to report any actual/potential technical incident/security breach to the relevant person, as agreed).
- Appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems, work stations, mobile devices, etc. from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual devices are protected by up to date virus software.

Mobile Technologies

Mobile technology devices may be school owned/provided or personally owned and might include: smartphone, tablet, notebook/laptop or other technology that usually has the capability of utilising the school's wireless network. The device then has access to the wider internet which may include the school's learning platform and other cloud-based services such as email and data storage.

All users should understand that the primary purpose of the use mobile/personal devices in a school context is educational. The mobile technologies policy should be consistent with and inter-related to other relevant school polices including but not limited to the staff code of conduct. Child protection policy, behaviour policy, anti-bullying policy, acceptable use policy. Teaching about the safe and appropriate use of mobile technologies should be an integral part of the school's online safety education programme.

Use of digital and video images

The development of digital imaging technologies has created significant benefits to learning, allowing staff and children instant use of images that they have recorded themselves or downloaded from the internet. However, staff, parents/carers and children need to be aware of the risks associated with publishing digital images on the internet. Such images may provide avenues for online-bullying to take place. Digital images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. It is common for employers to carry out internet searches for information about potential and existing employees. The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm:

- When using digital images, staff should inform and educate children about the risks associated with the taking, use, sharing, publication and distribution of images. In particular they should recognise the risks attached to publishing their own images on the internet e.g. on social networking sites.
- Written permission from parents or carers will be obtained before photographs of children are published on the school website/social media/local press.
- In accordance with guidance from the Information Commissioner's Office, parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use in not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published/made publicly available on social networking sites,

nor should parents/carers comment on any activities involving other children in the digital/video images.

- Staff and volunteers are allowed to take digital/video images to support educational aims, but must follow school policies concerning the sharing, distribution and publication of those images. Those images should only be taken on school equipment; the personal equipment of staff should not be used for such purposes.
- Care should be taken when taking digital/video images that children are appropriately dressed and are not participating in activities that might bring the individuals or the school into disrepute.
- Children must not take, use, share, publish or distribute images of others without their permission
- Photographs published on the website, or elsewhere that include children will be selected carefully and will comply with good practice guidance on the use of such images.
- Pupils' full names will not be used anywhere on a website or blog, particularly in association with photographs.
- Pupil's work can only be published with the permission of the student/pupil and parents or carers.

Data Protection

Personal data will be recorded, processed, transferred and made available according to the current data protection legislation.

The school must ensure that:

- it has a Data Protection Policy.
- it implements the data protection principles and is able to demonstrate that it does so through use of policies, notices and records.
- it has paid the appropriate fee Information Commissioner's Office (ICO) and included details of the Data Protection Officer (DPO).
- it has appointed an appropriate Data Protection Officer (DPO) who has a high level of understanding of data protection law and is free from any conflict of interest.
- it has an 'information asset register' in place and knows exactly what personal data it holds, where this data is held, why and which member of staff has responsibility for managing it
- the information asset register records the lawful basis for processing personal data (including, where relevant, how consent was obtained and refreshed). Where special category data is processed, an additional lawful basis will have also been recorded
- it will hold only the minimum personal data necessary to enable it to perform its function and it will not hold it for longer than necessary for the purposes it was collected for. The school should develop and implement a 'retention policy" to ensure there are clear and understood policies and routines for the deletion and disposal of data to support this. personal data held must be accurate and up to date where this is necessary for the purpose it is processed for. Have systems in place to identify inaccuracies, such as asking parents to check emergency contact details at suitable intervals

- it provides staff, parents, volunteers, teenagers and older children with information about how the school looks after their data and what their rights are in a clear Privacy Notice.
- procedures must be in place to deal with the individual rights of the data subject, e.g. one of the 8 data subject rights applicable is that of Subject Access which enables an individual to see to have a copy of the personal data held about them (subject to certain exceptions which may apply).
- data Protection Impact Assessments (DPIA) are carried out where necessary. For example, to ensure protection of personal data when accessed using any remote access solutions, or entering into a relationship with a new supplier (this may also require ensuring that data processing clauses are included in the supply contract or as an addendum)
- IT system security is ensured and regularly checked. Patches and other security essential updates are applied promptly to protect the personal data on the systems. Administrative systems are securely ring fenced from systems accessible in the classroom/to learners
- it has undertaken appropriate due diligence and has required data processing clauses in contracts in place with any data processors where personal data is processed.
- it understands how to share data lawfully and safely with other relevant data controllers.
- it reports any relevant breaches to the Information Commissioner within 72hrs of becoming aware of the breach in accordance with UK data protection law. It also reports relevant breaches to the individuals affected as required by law. In order to do this, it has a policy for reporting, logging, managing, investigating and learning from information risk incidents.
- If a maintained school, it must have a Freedom of Information Policy which sets out how it will deal with FOI requests.
- all staff receive data protection training at induction and appropriate refresher training thereafter. Staff undertaking particular data protection functions, such as handling requests under the individual's rights, will receive training appropriate for their function as well as the core training provided to all staff.

When personal data is stored on any mobile device or removable media the:

- data must be encrypted and password protected.
- device must be password protected.
- device must be protected by up to date virus and malware checking software
- data must be securely deleted from the device, in line with school policy (below) once it has been transferred or its use is complete.

Staff must ensure that they:

- at all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse.
- can recognise a possible breach, understand the need for urgency and know who to report it to within the school.

- can help data subjects understands their rights and know how to handle a request whether verbal or written. Know who to pass it to in the school.
- where personal data is stored or transferred on mobile or other devices (including USBs) these must be encrypted and password protected.
- will not transfer any school personal data to personal devices except as in line with school policy.
- access personal data sources and records only on secure password protected computers and other devices, ensuring that they are properly "logged-off" at the end of any session in which they are using personal data.

Communications

A wide range of rapidly developing communications technologies has the potential to enhance learning. When using communication technologies, the school considers the following as good practice:

- The official school email service may be regarded as safe and secure and is monitored. Users should be aware that email communications are monitored.
- Users must immediately report to the nominated person – in accordance with the school policy, the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication.
- Any digital communication between staff and children or parents/carers (email, social media, chat, blogs, VLE etc) must be professional in tone and content. These communications may only take place on official (monitored) school systems. Personal email addresses, text messaging or social media must not be used for these communications.
- Children should be taught about online safety issues, such as the risks attached to the sharing of personal details. They should also be taught strategies to deal with inappropriate communications and be reminded of the need to communicate appropriately when using digital technologies.
- Personal information should not be posted on the school website and only official email addresses should be used to identify members of staff.
- Communications to members of staff should be directed through the school admin email address.

Social Media - Protecting Professional Identity

All schools, academies, MATs and local authorities have a duty of care to provide a safe learning environment for pupils and staff. Schools/academies, MATs and local authorities could be held responsible, indirectly for acts of their employees in the course of their employment. Staff members who harass, engage in online bullying, discriminate on the grounds of sex, race or disability or who defame a third party may render the *school* or local authority/MAT liable to the injured party. Reasonable steps to prevent predictable harm must be in place.

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to pupils, staff and the school through:

- Ensuring that personal information is not published
- Training is provided including: acceptable use; social media risks; checking of settings; data protection; reporting issues.
- Clear reporting guidance, including responsibilities, procedures and sanctions

School staff should ensure that:

- No reference should be made in social media to children, parents/carers or school staff
- They do not engage in online discussion on personal matters relating to members of the school community
- Personal opinions should not be attributed to the *school* or local authority
- Security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information.

Personal Use:

- Personal communications are those made via a personal social media accounts. In all cases, where a personal account is used which associates itself with the school or impacts on the school/ academy, it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy
- Personal communications which do not refer to or impact upon the school are outside the scope of this policy
- Where excessive personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken.

Dealing with unsuitable/inappropriate activities

Some internet activity e.g. accessing child abuse images or distributing racist material is illegal and would obviously be banned from school and all other technical systems. Other activities e.g. cyber-bullying would be banned and could lead to criminal prosecution. There are however a range of activities which may, generally, be legal but would be inappropriate in a school context, either because of the age of the users or the nature of those activities.

The school believes that the activities referred to in the following section would be inappropriate in a school context and that users, as defined below, should not engage in these activities in/or outside the school when using school equipment or systems. The school policy restricts usage as follows:

User Actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Users shall not visit Internet sites, make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:	Child sexual abuse images –The making, production or distribution of indecent images of children. Contrary to The Protection of Children Act 1978 N.B. Schools/academies should refer to guidance about dealing with self-generated images/sexting – UKSIC Responding to and managing sexting incidents and UKCIS – Sexting in schools and colleges					X
	Grooming, incitement, arrangement or facilitation of sexual acts against children Contrary to the Sexual Offences Act 2003.					X
	Possession of an extreme pornographic image (grossly offensive, disgusting or otherwise of an obscene character) Contrary to the Criminal Justice and Immigration Act 2008					X
	Criminally racist material in UK – to stir up religious hatred (or hatred on the grounds of sexual orientation) - contrary to the Public Order Act 1986					X
	Pornography				X	
	Promotion of any kind of discrimination				X	
	threatening behaviour, including promotion of physical violence or mental harm				X	
	Promotion of extremism or terrorism				X	
	Any other information which may be offensive to colleagues or breaches the integrity of the ethos of the school or brings the school into disrepute				X	
Activities that might be classed as cyber-crime under the Computer Misuse Act: • Gaining unauthorised access to school networks, data and files, through the use of computers/devices						X

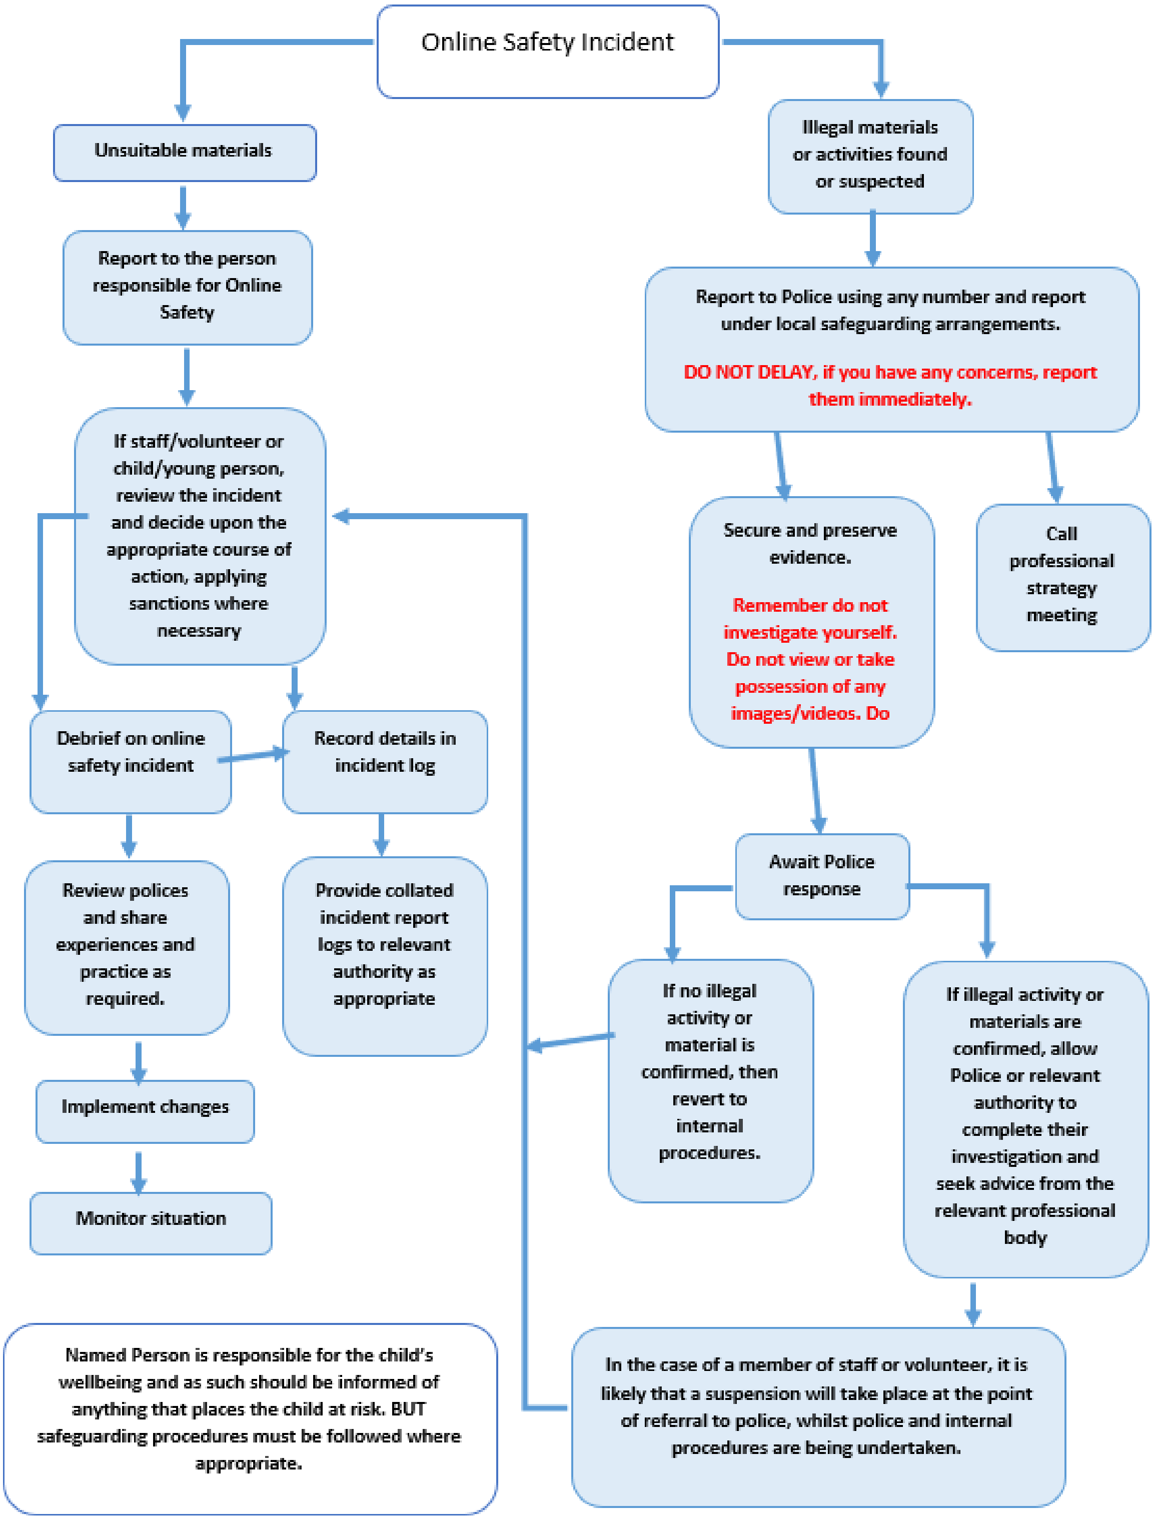
• Creating or propagating computer viruses or other harmful files • Revealing or publicising confidential or proprietary information (e.g. financial / personal information, databases, computer / network access codes and passwords) • Disable/Impair/Disrupt network functionality through the use of computers/devices • Using penetration testing equipment (without relevant permission) N.B. Schools/academies will need to decide whether these should be dealt with internally or by the police. Serious or repeat offences should be reported to the police. Under the Cyber-Prevent agenda the National Crime Agency has a remit to prevent young people becoming involved in cyber-crime and harness their activity in positive ways – further information here					
Using systems, applications, websites or other mechanisms that bypass the filtering or other safeguards employed by the school				X	
Revealing or publicising confidential or proprietary information (e.g. financial/personal information, databases, computer/network access codes and passwords)				X	
Unfair usage (downloading/uploading large files that hinders others in their use of the internet)				X	
Using school systems to run a private business				X	
Infringing copyright				X	
On-line gaming (educational)		X			
On-line gaming (non-educational)		X			
On-line gambling				X	
On-line shopping/commerce			X		
Use of social media		X			
Use of messaging apps				X	
Use of video broadcasting e.g. Youtube			X		

Responding to incidents of misuse

This guidance is intended for use when staff need to manage incidents that involve the use of online services. It encourages a safe and secure approach to the management of the incident. Incidents might involve illegal or inappropriate activities (see "User Actions" above).

Illegal Incidents

If there is any suspicion that the web site(s) concerned may contain child abuse images, or if there is any other suspected illegal activity, refer to the right hand side of the Flowchart (below and appendix) for responding to online safety incidents and report immediately to the police.



Online Safety Incident

Unsuitable materials

Report to the person responsible for Online Safety

If staff/volunteer or child/young person, review the incident and decide upon the appropriate course of action, applying sanctions where necessary

Debrief on online safety incident

Record details in incident log

Review polices and share experiences and practice as required.

Provide collated incident report logs to relevant authority as appropriate

Implement changes

Monitor situation

Illegal materials or activities found or suspected

Report to Police using any number and report under local safeguarding arrangements.

DO NOT DELAY, if you have any concerns, report them immediately.

Secure and preserve evidence.

Remember do not investigate yourself. Do not view or take possession of any images/videos. Do

Call professional strategy meeting

Await Police response

If no illegal activity or material is confirmed, then revert to internal procedures.

If illegal activity or materials are confirmed, allow Police or relevant authority to complete their investigation and seek advice from the relevant professional body

In the case of a member of staff or volunteer, it is likely that a suspension will take place at the point of referral to police, whilst police and internal procedures are being undertaken.

Named Person is responsible for the child's wellbeing and as such should be informed of anything that places the child at risk. BUT safeguarding procedures must be followed where appropriate.

Other Incidents

It is hoped that all members of the school community will be responsible users of digital technologies, who understand and follow school policy. However, there may be times when infringements of the policy could take place, through careless or irresponsible or, very rarely, through deliberate misuse.

In the event of suspicion, all steps in this procedure should be followed:

- Have more than one senior member of staff involved in this process. This is vital to protect individuals if accusations are subsequently reported.
- Conduct the procedure using a designated computer that will not be used by young people and if necessary can be taken off site by the police should the need arise. Use the same computer for the duration of the procedure.
- It is important to ensure that the relevant staff should have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
- Record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed and attached to the form (except in the case of images of child sexual abuse – see below)
- Once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does, then appropriate action will be required and could include the following:
    - Internal response or discipline procedures
    - Involvement by Local Authority/Academy Group or national/local organisation (as relevant).
    - Police involvement and/or action
- **If content being reviewed includes images of child abuse, then the monitoring should be halted and referred to the Police immediately. Other instances to report to the police would include:**
    - incidents of 'grooming' behaviour
    - the sending of obscene materials to a child
    - adult material which potentially breaches the Obscene Publications Act
    - criminally racist material
    - promotion of terrorism or extremism
    - offences under the Computer Misuse Act (see User Actions chart above)
    - other criminal conduct, activity or materials

- **Isolate the computer in question as best you can. Any change to its state may hinder a later police investigation.**

It is important that all of the above steps are taken as they will provide an evidence trail for the *school* and possibly the police and demonstrate that visits to these sites were carried out for safeguarding purposes. The completed form should be retained by the group for evidence and reference purposes.

School actions & sanctions

It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour/disciplinary procedures in line with our behaviour policy

SCHOOLS AND COLLEGES

Federation of Follifoot & Spofforth CE Primary Schools
Acceptable Use Agreement – ICT and E Technology

This agreement is designed to ensure that all members of staff are aware of their professional responsibilities when using any form of ICT and the related technologies such as email, the internet, web2 technologies and mobile devices. Members of staff should consult with (The Head Teacher for further information and clarification.

Members of staff:

- Must only use the school's email, internet and intranet and other related technologies for professional purposes or for uses deemed 'reasonable' by the Head or Governing Body. Individual employees' internet and other related technologies can be monitored and logged and can be made available, on request, to their line manager or Headteacher.
- Must only use approved, secure email systems for any school business.
- Must not browse, download or send material that could be considered offensive, and should report any accidental access of inappropriate materials to their line manager.
- Should not use school information systems or resources (e.g. cameras, laptops, memory devices) for personal purposes without specific permission from the Headteacher; they should only used for professional purposes.
- Are not permitted to use personal portable media for storage of school related data/images (e.g. USB stick) without the express permission of the Headteacher.
- Should ensure that personal data (such as data held on SIMS) is kept secure and is used appropriately, whether in school, taken off school premises, or accessed remotely. Personal data can only be taken out of school when authorised by the Headteacher or Governing Body.
- Are not permitted to use personal digital equipment, such as mobile phones and cameras, to record images of pupils, including when on external trips/visits. With the written consent of parents (on behalf of parents) and staff, the school permits the appropriate taking of images by staff and pupils with school equipment. Digital images are easy to capture, reproduce and publish and, therefore, misused.
- Should ensure that their use of web 2 technologies, including social networking sites, such as Facebook, Bebo, and Myspace, does not question or bring their professional role into disrepute. Members of staff:
  - Are advised to consider, and set appropriately, their privacy settings on such sites.
  - Should consider the appropriateness of images and material posted. Once posted online, a message, photo or video clip can be freely copied, manipulated and circulated and will potentially exist forever.
  - Should not communicate with pupils, in relation to either school or non school business, via web 2 technologies. Members of staff should only communicate with pupils using the appropriate LA/school learning platforms or other systems approved by the Headteacher.
- Are not permitted to contact or communicate with pupils, parents or conduct school business using personal email addresses or telephones, without specific permission from the Headteacher.
- Should not give out their own personal details, such as telephone/mobile number or email address, to pupils.
- Must ensure that all electronic communication with pupils and staff is compatible with their professional role.

User Signature

I agree to follow this user agreement, and understand that failure to do so may result in disciplinary proceedings in line with the School's Disciplinary Procedure.

10. I always check before **SHARING** personal information □
11. I am **KIND** and polite to everyone □

My trusted adults are:

____________________________ **at school** ____________________________ **at home**

Key Stage 2 Acceptable Use Policy

These statements can keep me and others safe & happy at school and home

1. ***I learn online*** – I use the school's internet, devices and logins for schoolwork, homework and other activities to learn and have fun. All school devices and systems are monitored, including when I'm using them at home.
2. ***I learn even when I can't go to school*** – I don't behave differently when I'm learning at home, so I don't say or do things I wouldn't do in the classroom and nor do teachers or tutors. If I get asked or told to do anything that I would find strange in school, I will tell another teacher.
3. ***I ask permission*** – At home or school, I only use the devices, apps, sites and games I am allowed to and when I am allowed to.
4. ***I am a friend online*** – I won't share or say anything that I know would upset another person or they wouldn't want shared. If a friend is worried or needs help, I remind them to talk to an adult, or even do it for them.
5. ***I am a secure online learner*** – I keep my passwords to myself and reset them if anyone finds them out. Friends don't share passwords!
6. ***I am careful what I click on*** – I don't click on unexpected links or popups, and only download or install things when I know it is safe or has been agreed by trusted adults. Sometimes app add-ons can cost money, so it is important I always check.
7. ***I ask for help if I am scared or worried*** – I will talk to a trusted adult if anything upsets me or worries me on an app, site or game – it often helps. If I get a funny feeling, I talk about it.
8. ***I know it's not my fault if I see or someone sends me something bad*** – I won't get in trouble, but I mustn't share it. Instead, I will tell a trusted adult. If I make a mistake, I don't try to hide it but ask for help.
9. ***I communicate and collaborate online*** – with people I already know and have met in real life or that a trusted adult knows about.
10. ***I know new online friends might not be who they say they are*** – I am careful when someone wants to be my friend. Unless I have met them face to face, I can't be sure who they are.
11. ***I don't do live videos (livestreams) on my own*** – and always check if it is allowed. I check with a trusted adult before I video chat with anybody for the first time.

12. ***I keep my body to myself online*** – I never get changed or show what's under my clothes when using a device with a camera. I remember my body is mine and no-one should tell me what to do with it; I don't send any photos or videos without checking with a trusted adult.
13. ***I say no online if I need to*** – I don't have to do something just because someone dares or challenges me to do it, or to keep a secret. If I get asked anything that makes me worried, upset or just confused, I should say no, stop chatting and tell a trusted adult immediately.
14. ***I tell my parents/carers what I do online*** – they might not know the app, site or game, but they can still help me when things go wrong, and they want to know what I'm doing.
15. ***I follow age rules*** – 13+ games and apps aren't good for me so I don't use them – they may be scary, violent or unsuitable. 18+ games are not more difficult but very unsuitable.
16. ***I am private online*** – I only give out private information if a trusted adult says it's okay. This might be my address, phone number, location or anything else that could identify me or my family and friends; if I turn on my location, I will remember to turn it off again.
17. ***I am careful what I share and protect my online reputation*** – I know anything I do can be shared and might stay online forever (even on Snapchat or if I delete it).
18. ***I am a rule-follower online*** – I know that apps, sites and games have rules on how to behave, and some have age restrictions. I follow the rules, block bullies and report bad behaviour, at home and at school.
19. ***I am not a bully*** – I do not post, make or share unkind, hurtful or rude messages/comments and if I see it happening, I will tell my trusted adults.
20. ***I am part of a community*** – I do not make fun of anyone or exclude them because they are different to me. If I see anyone doing this, I tell a trusted adult and/or report it.
21. ***I respect people's work*** – I only edit or delete my own digital work and only use words, pictures or videos from other people if I have their permission or if it is copyright free or has a Creative Commons licence.

22. ***I am a researcher online*** – I use safe search tools approved by my trusted adults. I know I can't believe everything I see online, know which sites to trust, and know how to double check information I find. If I am not sure I ask a trusted adult.

~~~~~~~~~~~~~~~~~~~~~~

I have read and understood this agreement.

If I have any questions, I will speak to a trusted adult: at school that includes ____

Outside school, my trusted adults are_________________________________

I know I can also get in touch with Childline
